Married students will be staying in apartment-style housing on campus. Couples without children will have single bedroom apartments and couples with children will have 2-bedroom apartments. Students whose families have need for more space are encouraged to seek housing off-campus. Contact CanIL for possible leads.

Note that, unlike previous years, there is no meal plan included in on-campus housing. Students are free to plan their own meals, buy their own groceries or visit the cafeteria. Apartments are furnished but will not be supplied with kitchen supplies. See FAQ sheet for more details.

Please let us know if there are special factors to consider in your dorm assignment:
