[2] Student: as soon as you are fairly certain about whether you'll choose Greek or Hebrew, please delete the other option from here so the Advisor knows your intent. (There's no rush to do this if you're undecided.)

[3] Typically this is a BIE course which is taken after Intro Greek/Hebrew and Hermeneutics with the intent of applying exegetical principles. There is some flexibility with respect to this course.

[4] Any LIN, BIE, CCM, or THS courses. Or, with permission of Advisor, a course outside of these categories but which is consistent with the Program Goals.
